TESTIMONIAL FOR VO NGO GIA BAO

Vo Ngo Gia Bao joined Faraday Technology Vietnam on Jan 2024. He was given the position of Engineer.

From Jan 2024 to May 2024, Gia Bao worked under Raymond Nguyen in Faraday Technology Vietnam where he is in charge of DFT/STA for ASIC projects.

From Jan 2024 to May 2024, he was in charge for chiptop DFT/STA of shuttle projects. His tasks include Design For Test (DFT insertion, simulation, and deliver patterns to ATE), STA Timing sign-off. His performance has consistently been in the Top 10%. He is smart, careful and demonstrate perseverance to achieve project success. He always pay extra attention to details, especially in critical project execution. Within 1.5 month, Gia Bao help drive 1 project Tape-Out succesully.

Gia Bao has never refused additional responsibilities. Over the years, he was given additional tasks and he executed them without hesitation. He is well-liked by all his peers, as he have consistently displayed patience and initiative when dealing with people. Gia Bao is often seen helping in effective communications between different teams located in Taiwan, Vietnam.

He is also active in taking part of Company's activities as well as outside seminar and workshops. He demonstrated strong willingness to keep learning and improving himself.

I recommend Vo Ngo Gia Bao unreservedly to any prospective employer. He has demonstrated dedication, diligence and seriousness in his work.

I wish him all the best in his future endeavours.

Raymond Nguyen
Director
Faraday Technology Vietnam
